Part 3 – Scholarship or Sponsorship Report

(Maximum two pages)

- **How has the course assisted you in your day to day working life?**

The main benefit of the course has been the contacts I have made with researchers involved in the cotton industry and the interaction with fellow students

- **How has the course assisted you in your career path?**

- The course has helped in improving research skills and keeping up to date with the latest information in the industry.

- **What was the most valuable thing you got out of the course?**

- The networking opportunities with leading information providers in the industry.

- **How will completing the course benefit the industry?**

In a new production area like southern NSW it is important to provide up to date advice and support to new and prospective growers and advisors as they enter the industry. The course has provided me with good connections into the cotton research community which is not based locally.

I now have a wider awareness and appreciation of how the industry benefits from current and past research.

- **How do you intend to share the knowledge you have gained with other people in the cotton industry?**

- The knowledge I have gained is important in providing up to date information to growers and advisors in the industry. I frequently refer to course manuals to provide information to clients

6. Do you have any recommendations on how to improve the course?

Not really. It is a well structured course with the intensive residential schools providing good interaction

7. Please attach any supporting documentation or course completion transcript

Please email your report 30 days after course to: research@crdc.com.au
