Part 3 – Scholarship or Sponsorship Report

(Maximum two pages)

1. How has the course assisted you in your day to day working life?

Managing cotton crops in the MacIntyre area I am able to draw on the scientific theory and experiences to assist in making profitable decisions for the growers.

2. How has the course assisted you in your career path?

I changed jobs in May 2014 to work as an agronomist for McGregor Gourlay. My experience in cotton backed by the completion of the course assisted me in the interview process for this new position.

3. What was the most valuable thing you got out of the course?

Bringing together scientific theory with practical applications in the paddock. The Systems unit was also a particularly good way to bring together the learning from the earlier units of the course. The presentation skills and also project at the end of this unit were a good transition into putting the skills learned into a workplace situation.

4. How will completing the course benefit the industry?

It ensures the cotton industry going forward is serviced by practically knowledgeable personnel.

5. How do you intend to share the knowledge you have gained with other people in the cotton industry?

Field days through work and via the Macintyre valley cotton field day committee. Also, networking with young people to encourage them to do the course to pursue their career in the cotton industry.

6. Do you have any recommendations on how to improve the course?

Keep the course as interactive as possible. Encourage open discussions especially between external students, the res schools are very valuable.

7. Please attach any supporting documentation or course completion transcript

Please see following page.

Please email your report 30 days after course to: research@crdc.com.au
