

# Walter Baethgen – Cotton Conference 2016

## Introduction

A Cotton Conference ‘first’ saw technology play a role with an international speaker submitting a pre-recording due to complications with VISA entry requirements.

Walter tuned into the session from the back of the room via Skype.

The following recording was played in the climate session in front of a capacity crowd of approximately 300: <https://www.youtube.com/watch?v=7u5jznUsAQ>
