FINAL REPORT - COTTON RESEARCH & DEVELOPMENT CORPORATION

PROJECT CODE: CS14L

PROJECT TITLE: Funding For Research Computing To Enable The Continued Development Of The SIRATAC Computer Program.

SUPERVISOR: Mr K.D. Brook

FINAL REPORT: The aim of this project was to assist with the hardware maintenance of the VAX750 computer which is used for SIRATAC development, statistical analysis and data processing by Australian cotton researchers. The hardware maintenance contract provided an effective means of minimizing downtime throughout the year and problems with the hardware were fixed promptly under the contract.
